# Summary

## Who we are and what we do

The Boundary Commission for England is an independent and impartial non-departmental public body which is responsible for reviewing Parliamentary constituency boundaries in England.

## The 2018 Review

We have the task of periodically reviewing the boundaries of all the Parliamentary constituencies in England. We are currently conducting a review on the basis of rules set by Parliament in 2011. The rules tell us that we must make recommendations for new Parliamentary constituency boundaries in September 2018. They also result in a significant reduction in the number of constituencies in England (from 533 to 501), and require that every constituency – apart from two specified exceptions – must have an electorate that is no smaller than 71,031 and no larger than 78,507.

## Initial proposals

We published our initial proposals for the new Parliamentary constituency boundaries in England on 13 September 2016. Information about the proposed constituencies is now available on our website.

## What is changing in the South East?

The South East region has been allocated 83 constituencies – a reduction of one from the current number.

Our proposals leave 15 of the 84 existing constituencies unchanged. We propose only minor changes to a further 47 constituencies, with two wards or fewer altered from the existing constituencies.

The rules that we work to state that we must allocate two constituencies to the Isle of Wight. Neither of these constituencies is required to have an electorate that is within the requirements on electoral size set out in the rules.

In Berkshire, two of the eight existing constituencies are unchanged, while four are changed only by the transfer of one ward.

In Brighton and Hove, East Sussex, Kent, and Medway, two of the 25 existing constituencies are unaltered and one is reconfigured slightly due to rewording. A further four are altered only by the transfer of one ward.

In Buckinghamshire and Milton Keynes, one of the seven existing constituencies is unchanged.

In Hampshire, Portsmouth, and Southampton, three of the 18 existing constituencies are unaltered, while a further four are altered only by the transfer of one ward.

In the County of Oxfordshire, one of the six existing constituencies is unchanged, while one is changed only by the transfer of one ward.

In Surrey, five of the existing 11 constituencies are unaltered, while three of the remaining six are altered only by the transfer of one ward.

Sub-region	Existing allocation	Proposed allocation
Berkshire	8	8
Brighton and Hove, East Sussex, Kent, and Medway	25	24
Buckinghamshire and Milton Keynes	7	7
Hampshire, Portsmouth and Southampton	18	17
Isle of Wight	1	2
Oxfordshire	6	6
Surrey	11	11
West Sussex	8	8

In West Sussex, one of the existing eight constituencies is unchanged and one is reconfigured slightly due to rewarding. A further five are changed only by the transfer of one ward.

As it has not always been possible to allocate whole numbers of constituencies to individual counties, we have grouped some county and local authority areas into sub-regions. The number of constituencies allocated to each sub-region is determined by the electorate of the combined local authorities.

Consequently, it has been necessary to propose some constituencies that cross county or unitary authority boundaries.

We have proposed one constituency that contains electors from Brighton and Hove, and East Sussex; it crosses the boundary on the south coast, combining the east of the City of Brighton and Hove with Newhaven and Seaford. We propose one constituency that contains electors from East Sussex and Kent; it crosses the boundary at The Weald, combining the towns of Crowborough and Tenterden.

We further propose two constituencies that contain electors from Kent, and Medway. One crosses the boundary at Higham, combining it with Rochester, and the other at Chatham, combining it with East and West Malling.

## How to have your say

We are consulting on our initial proposals for a 12-week period, from 13 September 2016 to 5 December 2016. We encourage everyone to use this opportunity to help us shape the new constituencies – the more views we hear, the more informed our decisions will be when considering whether to revise our proposals.

Our website at [www.bce2018.org.uk](http://www.bce2018.org.uk) has more information about how to respond as well as details of where and when we will be holding public hearings in your area. You can also follow us on Twitter @BCE2018 or using #2018boundaryreview.

# 1 What is the Boundary Commission for England?

**1** The Boundary Commission for England (BCE) is an independent and impartial non-departmental public body which is required to review Parliamentary constituency boundaries in England. We conduct a review of all the constituencies in England every five years. Our role is to make recommendations to Parliament for new constituency boundaries.

You can find further information on our website, at [www.bce2018.org.uk](http://www.bce2018.org.uk). You can also contact us with any general enquiries by emailing [information@boundarycommissionengland.gov.uk](mailto:information@boundarycommissionengland.gov.uk), or by calling 020 7276 1102.

**2** The Chair of the Commission is the Speaker of the House of Commons, but by convention he does not participate in the review. The current Deputy Chair, Mrs Justice Patterson, and two further Commissioners, take decisions on proposals and recommendations for new constituency boundaries. Further information about the Commissioners can be found on our website.<sup>1</sup>

<sup>1</sup> At [www.bce2018.org.uk](http://www.bce2018.org.uk)

## 2 Background to the 2018 Review

**3** We are currently conducting a review of Parliamentary constituency boundaries on the basis of rules set by Parliament in 2011.<sup>2</sup> These rules require us to reduce the number of constituencies in the UK and make more equal the number of electors in each constituency. This report covers only the work of the Boundary Commission for England (there are separate Commissions for Northern Ireland, Scotland, and Wales) and, in particular, introduces our initial proposals for the South East region.

**4** The rules set out in the legislation state that there will be 600 Parliamentary constituencies covering the UK – a reduction of 50 from the current number. This means that the number of constituencies in England must be reduced from 533 to 501. There are also other rules that the Commission has regard to when conducting the review – a full set of the rules can be found in our *Guide to the 2018 Review*<sup>3</sup> published in summer 2016, but they are also summarised later in this chapter. Most significantly, the rules require every constituency we recommend (with the exception of two covering the Isle of Wight) to contain no fewer than 71,031 electors and no more than 78,507.

**5** This is a significant change to the old rules under which Parliamentary boundary reviews took place, in which achieving as close to the average number of electors in each constituency was an aim, but there was no statutory fixed permissible range. For example, in England, existing constituencies (drawn under the previous rules) currently range from 54,232 to 105,448 electors. Furthermore, the current constituencies were constructed under the last completed review, which relied on the data contained in the electoral registers for 2000 and applied the earlier version of the rules. Achieving a more even distribution of electors in every constituency across England, together with the reduction in the total number of constituencies, means that a significant amount of change to the existing map of constituencies is inevitable.

**6** Our *Guide to the 2018 Review* contains further detailed background information, and explains all the policies and procedures that we are following in conducting the review. We encourage anyone wishing to be involved in the review to read this document, which will give them a greater understanding of the rules and constraints placed on the Commission, especially if they are intending to comment on our initial proposals.

<sup>3</sup> Available at [www.bce2018.org.uk](http://www.bce2018.org.uk) and at all places of deposit

## The rules in the legislation

**7** As well as the primary rule that constituencies must have no fewer than 71,031 electors and no more than 78,507, the legislation also states that, when deciding on boundaries, the Commission may also take into account:

- special geographical considerations, including in particular the size, shape and accessibility of a constituency;
- local government boundaries as they existed on 7 May 2015;
- boundaries of existing constituencies; and
- any local ties that would be broken by changes in constituencies.

**8** In addition, in relation to local government boundaries in particular, it should be noted that we are obliged to take into account local government boundaries as they existed in May 2015, rather than any subsequent changes that may have been made (or are due to be made). Our initial proposals for the South East region (and the accompanying maps) are therefore based on local government boundaries as they existed in May 2015. Our *Guide to the 2018 Review* outlines further our policy on how, and to what extent, we take into account local government boundaries. We have used the wards as at May 2015 of unitary authorities, and borough and district councils (in areas where there is also a county council) as the basic building blocks for our proposals.

**9** Although the first review under the new rules will unavoidably result in significant change, we have also taken into account the boundaries of existing constituencies so far as we can. We have tried to retain existing constituencies as part of our initial proposals wherever possible, as long as the other factors can also be satisfied. This, however, has proved difficult. Our initial proposals retain just under 18% of the existing constituencies in the South East region – the remainder are new constituencies (although in a number of cases we have been able to limit the changes to existing constituencies, making only minor changes as necessary to enable us to comply with the rules).

**10** Our proposals are based on the nine regions used for European elections (though it should be clear that our work has no effect on European electoral matters, nor is it affected by the recent referendum result). This report relates to the South East region. There are eight other separate reports containing our initial proposals for the other regions. You can find more details on our website. While this approach does not prevent anyone from making proposals to us that cross regional boundaries (for example, between the South East and the South West regions), very compelling reasons would need to be given to persuade the Commission to depart from the region-based approach. The Commission has previously consulted on the use of the regions as building blocks, and this was supported.

## Timetable for our review

### Stage one – development of initial proposals

**11** We began this review in February 2016. We published electorate data from December 2015 for each ward, local government authority, and existing constituency. The electorate data were provided by local authorities and the Office for National Statistics. These are available on our website<sup>4</sup> and are the data that must be used throughout the remainder of the review process. The Commission has since then considered the factors outlined above and drawn up the initial proposals. We published our initial proposals for consultation for each of England's nine regions on 13 September 2016.

**12** We ask people to be aware that, in publishing our initial proposals, we do so without suggesting that they are in some way definitive, or that they provide the 'right answer' – they are our starting point for consulting on the changes. We have taken into account the existing constituencies, local government boundaries, and geographical features to produce a set of constituencies that are within the statutory electorate range and that we consider to be the best balance between those factors at this point. What we do not yet have is evidence and intelligence of how our proposals reflect or break local community ties. One of the most important purposes of the consultation period is to seek evidence that will enable us to review our initial proposals.

### Stage two – consultation on initial proposals

**13** We are consulting on our initial proposals for 12 weeks, until 5 December 2016. Chapter 4 outlines how you can contribute during the consultation period. We are also hosting five public hearings in the South East region, at which people can give their views direct to one of our Assistant Commissioners. Once the consultation has closed, the Commission will collate all the responses received, including records of the public hearings.

### Stage three – consultation on representations received

**14** We are required to publish all the responses we receive on our initial proposals. This publication will mark the start of a four-week 'secondary consultation' period, likely to take place in spring 2017. The purpose of the secondary consultation is for people to see what others have said in response to our initial proposals, and to make comments on their views, for example by countering an argument, or by supporting and reinforcing what others have said. You will be able to see all the comments on our website, and use the site to give us your views on what others have said.

<sup>4</sup> At [www.bce2018.org.uk](http://www.bce2018.org.uk)

#### Stage four – development and publication of revised proposals

**15** Once we have all the representations and comments from both the initial and secondary consultation periods, the Commission will analyse those representations and decide whether changes should be made to the initial proposals. If we decide that the evidence presented to us persuades us to change our initial proposals, then we must publish our revised proposals for the areas concerned, and consult on them for a further period of eight weeks. This is likely to be towards the end of 2017. When we consult on our revised proposals, there will be no further public hearings, nor will there be a repeat of the four-week period for commenting on the representations of others. You will be able to see all our revised proposals, and give us your views on them, on our website.

#### Stage five – development and publication of the final report and recommendations

**16** Finally, following the consultation on revised proposals, we will consider all the evidence received at this stage, and throughout the review, before determining our final recommendations. The recommendations will be set out in a published report to the Government, who will present it, without amendment, to Parliament on our behalf. The legislation states that we must report to the Government in September 2018. Further details about what the Government and Parliament then do with our recommendations are contained in our *Guide to the 2018 Review*.

**17** Throughout each consultation we will be taking all reasonable steps to publicise our proposals, so that as many people as possible are aware of the consultation and can take the opportunity to contribute to our review of constituencies.

### 3 Initial proposals for the South East region

**18** The South East region comprises the counties of Berkshire, Buckinghamshire, East Sussex, Hampshire, Kent, Oxfordshire, Surrey, and West Sussex (all of which are covered by a mix of district and county councils, and unitary authorities) and the unitary authorities of Brighton and Hove, Isle of Wight, Medway, Milton Keynes, Portsmouth and Southampton.

**19** The region currently has 84 constituencies. Of the existing constituencies, 40 have electorates within 5% of the electoral quota. The electorates of 32 constituencies fall below the 5% limit, while the electorates of 12 constituencies are above the upper limit. Our initial proposals for the South East region are for 83 constituencies, a reduction of one.

**20** As discussed in chapter 2, the rules that govern how we conduct the review state that we must allocate two constituencies to the Isle of Wight. Neither of these constituencies is required to have an electorate that is within 5% of the electoral quota.

**21** In seeking to produce initial proposals for the region in which 81 of the 83 constituencies have an electorate within 5% of the electoral quota, we first considered whether, and how, the local authorities could usefully be grouped into sub-regions. We were mindful of seeking to respect, where we could, the external boundaries of the local authorities. Our approach in attempting to group local authorities together in sub-regions was based both on trying to respect county boundaries wherever possible and on achieving (where we could) obvious practical groupings such as those dictated in some part by the geography of the area.

**22** Our division of the South East region into sub-regions is a purely practical approach. We welcome counter-proposals from respondents to our consultation, based on other groupings of counties and unitary authorities, if the statutory factors can be better reflected in those counter-proposals.

**23** The City of Brighton and Hove has 183,038 electors, which would result in an allocation of 2.45 constituencies. Given its historic links to East Sussex and the current configuration of constituencies, we considered it would be appropriate to combine East Sussex with the City of Brighton and Hove when formulating a pattern of constituencies. With an allocation of eight constituencies, the average electorate for each constituency would be 70,783 – just 248 electors below the lower limit (71,031) of the 5% target. This suggests that it would prove difficult to allocate eight constituencies all with electorates within the 5% electoral quota. We therefore considered whether we should group the City of Brighton and Hove, and East Sussex, with either Kent, and Medway, or West Sussex.

**24** With an electorate of 598,549 it is possible to allocate eight constituencies to West Sussex, which is the same number as present. The electorate of Kent, and Medway is 1,227,088, and it is possible to allocate 16 constituencies, a reduction of one from the current situation. As there would need to be significant change to some of the constituencies in Kent to accommodate this reduction, we considered that grouping Brighton and Hove, East Sussex, Kent, and Medway into one sub-region, with an allocation of 24 constituencies, would be the most appropriate solution and produce better

proposals. As a result our proposals contain one constituency which crosses the boundary between the City of Brighton and Hove and the County of East Sussex, and one constituency that crosses the boundary between East Sussex and Kent. Two constituencies also cross the boundary between Kent, and Medway (see the section on the Brighton and Hove, East Sussex, Kent, and Medway sub-region).

**25** The electorate of Milton Keynes, at 169,933, is too large to be contained within two whole constituencies. Therefore we propose to group Milton Keynes with Buckinghamshire in one sub-region, given that Buckinghamshire is the only county in the South East region that shares a border with Milton Keynes. As it has a combined electorate of 536,534, we propose to allocate seven constituencies to this sub-region, the same number as at present. Our proposals include one constituency which crosses the boundary between Milton Keynes and Buckinghamshire (see the section on the Buckinghamshire and Milton Keynes sub-region).

**26** The area of Hampshire, Portsmouth and Southampton has an electorate of 1,273,506. This enabled us to develop a proposal in which 17 constituencies are allocated to the area without the need to cross the boundary of another county. This is a reduction of one constituency from the existing allocation. Of the proposed constituencies, one crosses the boundary between Hampshire and the City of Portsmouth. We have proposed two constituencies covering the City of Southampton, neither of which crosses the boundary with Hampshire (see the section on the Hampshire, Portsmouth and Southampton sub-region).

**27** The electorates of the counties of Berkshire, Oxfordshire, Surrey and West Sussex enable each of them to be allocated a whole number of constituencies with electorates within 5% of the electoral quota, therefore allowing us to consider them individually. Accordingly, we propose that eight constituencies be allocated to Berkshire, six to Oxfordshire, 11 to Surrey and eight to West Sussex. The number of constituencies allocated to each of these counties is the same as at present.

**28** Having developed our initial proposals for the South East region, we are proposing to retain unchanged 15 of the existing constituencies.

**29** The term ‘ward’ used throughout this document should be taken to mean electoral division in reference to the Isle of Wight.

### **Initial proposals for the Berkshire sub-region**

**30** There are currently eight constituencies in this county. We are proposing no change to the number of constituencies. Of the existing constituencies, four (Bracknell, Maidenhead, Slough, and Wokingham) have electorates within 5% of the electoral quota. Of the remaining four constituencies, Newbury is over the 5% electoral quota and Reading East, Windsor, and Reading West are all below the 5% electoral quota.

**31** In order to reduce the large electorate in the Newbury constituency, we propose transferring the West Berkshire Borough ward of Aldermaston to the Wokingham constituency. In order to ensure the Reading East and Reading

West constituencies are within 5% of the electoral quota, we propose to transfer the Wokingham Borough ward of Maiden Erlegh to the Reading East constituency and the ward of Mapledurham from the Reading East constituency to the Reading West constituency.

**32** To increase the number of electors in the Windsor constituency, we propose transferring the Chalvey ward to it from the Slough constituency. We did consider whether other wards in Slough Borough could be included in the Windsor constituency in order to ensure it met the electoral quota. However, we identified that including other wards would result in the Slough constituency being detached or require the inclusion of multiple wards. We considered whether a ward from Buckinghamshire county could be included in the Windsor constituency but were of the view that crossing the county boundary was not necessary.

**33** We propose to keep unaltered the constituencies of Bracknell and Maidenhead, both of which are within 5% of the electoral quota.

### **Initial proposals for the Brighton and Hove, East Sussex, Kent, and Medway sub-region**

**34** There are currently 25 constituencies in this sub-region. Of the existing constituencies, eight have electorates within 5% of the electoral quota (Battle and Bexhill, Dartford, Dover, Eastbourne, Hastings and Rye, Rochester and Strood, Sittingbourne and Sheppey, and Tonbridge and Malling). Of the remaining constituencies, three are above the 5% limit and 14 are below the 5% limit.

We propose to reduce the number of constituencies to 24.

**35** We considered whether we could leave unchanged any of the eight existing constituencies that have an electorate within 5% of the electoral quota. However, in developing proposals in which all the proposed electorates are within 5% of the electoral quota and taking account of the reduction in the number of constituencies in this sub-region, we propose changing all but two constituencies – Hastings and Rye, and Sittingbourne and Sheppey. However, we propose only minor changes to the constituencies of Dartford, Eastbourne, Folkestone and Hythe, Gillingham and Rainham, and Rochester and Strood.

**36** The existing constituencies of Brighton, Pavilion, and Brighton, Kemptown, and Hove have electorates which are below the 5% limit. Therefore we propose reconfiguring these constituencies.

**37** We propose a Brighton Central and Hove constituency similar to the existing Hove constituency that now includes the City of Brighton and Hove wards of Regency, and St. Peter's and North Laine, which were previously included in the Brighton, Pavilion constituency. The other change we propose to the Hove constituency is to transfer the ward of Hove Park to the Brighton Pavilion constituency. To further increase the electorate in the Brighton Pavilion constituency, we propose that it includes the wards of Moulsecoomb and Bevendean, and Woodingdean, which were previously included in the Brighton, Kemptown constituency. In light of these modifications we propose to rename the Brighton Pavilion constituency Brighton North, as we consider this better reflects the area covered by the constituency.

**38** Due to the small electorates of the neighbouring Brighton, Kemptown and Lewes constituencies, we propose a Brighton East and Newhaven constituency that contains seven wards from the existing Brighton, Kemptown constituency, three of which are City of Brighton and Hove wards, and four of which are District of Lewes wards. In addition, our proposed constituency includes a further seven wards of the District of Lewes, from the existing Lewes constituency. This means that our proposed Brighton East and Newhaven constituency follows the south coast, includes the town of Seaford and has the A259 as a spine road through the constituency.

**39** As a consequence, we propose a significantly modified Lewes constituency. This constituency includes 14 wards from the existing Lewes constituency and 12 wards from the existing Wealden constituency, including the wards that cover the town of Uckfield. This constituency would include the areas of Lewes, Uckfield, Polegate and parts of the Ashdown Forest. As a result we propose that this constituency is named Lewes and Uckfield.

**40** We propose a new Bexhill and Battle constituency comprising almost half of the existing Bexhill and Battle constituency: it includes 16 wards from that constituency, encompassing the towns of Bexhill and Heathfield. In addition, our Bexhill and Battle constituency includes three wards from the existing Wealden constituency, including the town of Hailsham.

**41** As previously mentioned, we propose to retain the existing Hastings and Rye constituency unchanged. We also

propose to retain the existing Eastbourne constituency: the boundaries of this constituency have required small changes to ensure they reflect changes to local government ward boundaries in the District of Wealden, but no electors have been affected.

**42** As a result of the changes we have made in East Sussex, we propose a constituency called High Weald that crosses the county boundary between Kent and East Sussex. We considered that the similarity of areas on both sides of the county boundary and the geographical nature of the Weald meant that this was the most suitable place in which to create a constituency across the county boundary. The proposed High Weald constituency includes the remaining nine wards of the existing Wealden constituency, including the town of Crowborough, and the remaining five wards of the existing Bexhill and Battle constituency, including the town of Robertsbridge. In addition, it includes four Borough of Tunbridge Wells wards, including the town of Cranbrook, and seven Borough of Ashford wards, including the areas of Tenterden and Biddenden. We consider that, among others, the A21, A268 and A28 provide good road links in the constituency.

**43** As a result of our proposed High Weald constituency, the existing Tunbridge Wells constituency has to be reconfigured in order to have an electorate that is within 5% of the electoral quota. Our proposed Tunbridge Wells constituency includes 16 wards of the existing constituency, including the town of Tunbridge Wells, and five District of Sevenoaks wards from the existing Tonbridge and Malling constituency, including the town of Edenbridge.

**44** The existing Tonbridge and Malling constituency has been significantly reconfigured due to changes elsewhere. As a result we propose a Tonbridge and The Weald constituency that includes nine wards from the existing Tonbridge and Malling constituency, four wards from the existing Maidstone and The Weald constituency, including the village of Staplehurst, and seven wards from the existing Faversham and Mid Kent constituency, including the villages of Headcorn and Harrietsham.

**45** Our proposed Maidstone constituency is significantly different from the existing Maidstone and The Weald constituency. We propose a more compact Maidstone constituency, comprising the whole of the town of Maidstone and the outlying villages of Barming, Bearsted and Otham.

**46** To increase the electorate of the Sevenoaks constituency, we propose to include all wards included in the existing Sevenoaks constituency, apart from the Ash and New Ash Green ward, which has been transferred to our proposed Gravesham constituency (detailed below), and three wards from the existing Tonbridge and Malling constituency, including the town of Borough Green.

**47** Our proposed Gravesham constituency is similar to the existing constituency. However, we do propose changes to ensure that the neighbouring constituencies of Dartford, and Rochester and Strood are within 5% of the electoral quota. We propose that the District of Sevenoaks ward of Hartley and Hodsoll Street is transferred from the existing Dartford constituency to the Gravesham constituency. Apart from this change,

we propose no further changes to the Dartford constituency, which will be coterminous with Dartford Borough. We also propose that the Borough of Gravesham ward of Higham is transferred from the Gravesham constituency to the Rochester and Strood constituency. Apart from the inclusion of this ward, we propose no further changes to the Rochester and Strood constituency.

**48** Our proposed Gillingham and Rainham constituency is largely unchanged, apart from the inclusion of the Lordswood and Capstone ward from the existing Chatham and Aylesford constituency. In addition to the transfer of this ward, we propose further changes to the existing Chatham and Aylesford constituency. We have also included in this constituency four wards from the existing Tonbridge and Malling constituency, including the towns of East Malling and West Malling. As a result of these changes, we propose that the Chatham and Aylesford constituency is renamed Chatham and The Mallings. As previously mentioned, our proposed Sittingbourne and Sheppey constituency remains unchanged from the existing constituency.

**49** As a result of our changes elsewhere in Kent, we propose significantly reconfigured constituencies of Ashford, Canterbury and Faversham, and North Kent Coastal.

**50** Our proposed Ashford constituency includes 27 wards from the current Ashford constituency and includes the Borough of Ashford ward of Saxon Shore, from the existing Folkestone and Hythe constituency. This results in a more compact urban constituency which has the

town of Ashford at its centre. Apart from the change detailed above, we propose no other changes to the Folkestone and Hythe constituency.

**51** Our proposed Canterbury and Faversham constituency includes ten wards from the existing Canterbury constituency, including the town of Canterbury, six wards from the existing Faversham and Mid Kent constituency, including the town of Faversham, and two wards from the existing Dover constituency. We consider that the A2 provides a clear road link through this constituency.

**52** As a consequence of these changes, we propose that the two District of Dover wards of Little Stour and Ashstone, and Sandwich are included in the Dover constituency to ensure it is within 5% of the electoral quota.

**53** The changes we have suggested elsewhere in Kent have led us to propose a new Thanet East constituency, which comprises the majority of the existing South Thanet constituency and five wards from the existing North Thanet constituency. The proposed Thanet East constituency encompasses the resort towns of Margate, Ramsgate and Broadstairs.

**54** As a result, our proposed North Kent Coastal constituency comprises the remainder of the wards in the North Thanet constituency, and the towns of Herne Bay and Westgate-on-Sea. This constituency also includes five wards from the existing Canterbury constituency, including the coastal town of Whitstable, which provides a further section of the North Kent coast.

## Initial proposals for the West Sussex sub-region

**55** There are currently eight constituencies in the County of West Sussex. We are proposing no change to the existing number of constituencies. Five of the existing constituencies have electorates within 5% of the electoral quota. The electorates of Mid Sussex and Chichester are above the 5% limit and Crawley is below the 5% limit.

**56** We considered whether we could leave unchanged any of the five existing constituencies that have an electorate within 5% of the electoral quota. In developing proposals in which all the constituency electorates are within 5% of the electoral quota we propose no alterations to the East Worthing and Shoreham constituency. Otherwise, we propose changes to all other constituencies in the county; on the whole these changes are relatively minor.

**57** In order to reduce the number of electors in the Chichester constituency, we propose to transfer the Plaistow ward of the District of Chichester to the Arundel and South Downs constituency. This results in the Chichester constituency being within 5% of the electoral quota. To reduce the number of electors in the Mid Sussex constituency we propose to transfer the Bolney ward of the District of Mid Sussex to the Arundel and South Downs constituency. The transfer of this ward results in the Mid Sussex constituency being within 5% of the electoral quota. However, the inclusion of both these wards in the Arundel and South Downs constituency results in it being above the 5% limit. Therefore, we propose

to include the Barnham ward of the District of Arun in the Bognor Regis and Littlehampton constituency. This results in both the constituencies of Arundel and South Downs, and Bognor Regis and Littlehampton being within 5% of the electoral quota.

**58** To the east of these constituencies we are proposing limited changes to the existing Worthing West constituency. These changes have been necessary following modifications to the local government ward boundaries in the District of Arun.

**59** To increase the number of electors in the Crawley constituency we propose to transfer to it the District of Mid Sussex ward of Copthorne and Worth from the Horsham constituency. The inclusion of this ward results in both the Crawley and Horsham constituencies being within 5% of the electoral quota.

### **Initial proposals for the Buckinghamshire and Milton Keynes sub-region**

**60** As mentioned previously, we decided that Milton Keynes and Buckinghamshire should be considered as one sub-region as it would be necessary to cross the boundary to achieve the electoral quota. The geographic position of Milton Keynes meant that this could only be achieved by considering it with the County of Buckinghamshire. There are currently seven constituencies in this sub-region. We are proposing no reduction in the number of constituencies.

**61** Of the existing constituencies, four have electorates within 5% of the electoral

quota. Of the remaining constituencies, Milton Keynes North and Milton Keynes South are above the 5% limit and Chesham and Amersham is below.

**62** We considered whether we could leave unchanged any of the four existing constituencies that have an electorate within 5% of the electoral quota. We propose keeping Beaconsfield the same as the existing constituency.

**63** The Borough of Milton Keynes is currently divided into two constituencies, both of which have electorates above the 5% limit. Additionally, the local government ward boundaries in the borough have also been modified. In order to reduce the electorates of the two Milton Keynes constituencies it is necessary to cross the boundary between the Borough of Milton Keynes and Buckinghamshire. We therefore propose to include the Wolverton and Stony Stratford wards of the Borough of Milton Keynes in our proposed Buckingham constituency. We consider these two wards the most appropriate to include in a cross-county constituency due to the communication links between the county and the borough. We did investigate whether to include wards from the Bletchley area in the Buckingham constituency, but considered this would be likely to divide the Bletchley area between constituencies.

**64** As a consequence, we propose that our Milton Keynes Newport Pagnell constituency include the wards of Danesborough & Walton, Monkston, Campbell Park & Old Woughton, and Woughton & Fishermead. In turn, the wards of Bradwell and Stantonbury are transferred to the Milton Keynes

Bletchley constituency from the existing Milton Keynes North constituency.

**65** The inclusion of the two Borough of Milton Keynes wards in the cross-county constituency has led us to transfer the District of Aylesbury Vale wards of Edlesborough, Pitstone & Cheddington, Oakfield & Bierton, Watermead, and Wingrave from the Buckingham constituency to the Aylesbury constituency. We note that these changes result in an Aylesbury constituency that is a slightly unusual shape as it wraps around the edge of the region, but considered that alternative boundaries would not result in a pattern of constituencies that were within 5% of the electoral quota.

**66** We propose that the Chesham and Amersham constituency, which currently has an electorate below 5% of the electoral quota, include the District of Wycombe wards of Lacey Green, Speen and the Hampdens, and Greater Hughenden, from the south-east of the existing Aylesbury constituency. Our proposed Wycombe constituency includes the wards of Bledlow and Bradenham, and Stokenchurch and Radnage. We consider that there are strong communication links within each of these constituencies.

### **Initial proposals for the Hampshire, Portsmouth and Southampton sub-region**

**67** There are currently 18 constituencies in this sub-region, eight of which (Basingstoke, Eastleigh, Fareham, Gosport, Meon Valley, New Forest East, North East Hampshire, and North West Hampshire) have electorates within 5% of the electoral quota. The electorates of

the other ten constituencies are below the 5% lower limit. We propose to allocate 17 constituencies to this sub-region, a reduction of one from the current arrangement.

**68** We considered whether we could leave unchanged any of the eight existing constituencies that have an electorate within 5% of the electoral quota. However, in developing proposals in which all constituencies are within 5% of the electoral quota we propose altering all but three of these constituencies – Gosport, Basingstoke and Eastleigh.

**69** In the north of the county, we propose significant changes to the existing constituencies. This is required to ensure that all constituencies are within 5% of the electoral quota and to accommodate the loss of a constituency. We propose an Aldershot constituency that includes the District of Hart wards of Crookham East, and Crookham West and Ewshot. This constituency no longer includes any of the Yateley area. We propose that the Yateley area is included in a modified North East Hampshire constituency, with the areas of Holybourne and Alton.

**70** As a consequence of these changes we propose significantly reconfigured constituencies of North West Hampshire and Test Valley. We propose that the Borough of Basingstoke and Deane wards of Pamber and Silchester, Bramley and Sherfield, and Sherborne St. John are transferred from the North East Hampshire constituency to the North West Hampshire constituency. Consequently, we propose to include the District of Test Valley wards of Anna, Ampport, and Penton Bellinger in our proposed Test Valley constituency.

To ensure the Test Valley constituency is within 5% of the electoral quota and to accommodate the loss of a constituency in the sub-region, we propose to include the Twyford and Compton areas of the Borough of Winchester and the Hiltlingbury and Chandler's Ford areas of the Borough of Eastleigh in our Test Valley constituency.

**71** In the south-west of the county, our New Forest East and New Forest West constituencies are largely similar to the existing constituencies. To increase the number of electors in the New Forest West constituency, we propose to include the ward of Boldre and Sway from the New Forest East constituency. This change results in the New Forest East constituency being below the 5% limit. Consequently, we propose that the Borough of Test Valley wards of Blackwater and Dun Valley are transferred to it from the existing Romsey and Southampton North constituency.

**72** In Southampton, we propose to include the City of Southampton wards of Bassett and Swaythling in our Southampton Test constituency. This has enabled us to transfer the City of Southampton ward of Bevois to our Southampton Itchen constituency. This results in both the Southampton Test and Southampton Itchen constituencies being within 5% of the electoral quota and means that all wards of the City of Southampton are included in Southampton constituencies.

**73** We propose relatively minor changes to the existing constituencies of Fareham, Havant, Portsmouth North, and Portsmouth South. Our Fareham constituency is largely unchanged from the existing one. We propose that this

constituency include the City of Winchester ward of Whiteley from the existing Meon Valley constituency. In order to increase the number of electors in the Portsmouth North constituency, we propose that it include the Borough of Havant wards of Purbrook and Stakes, which are currently located in the existing Havant constituency. As a result of this change, we are able to increase the electorate in the Portsmouth South constituency. We noted that either of the City of Portsmouth wards of Baffins or Nelson could be included in the Portsmouth South constituency to bring it within 5% of the electoral quota. We propose to include the Nelson ward in the Portsmouth South constituency, as we considered this resulted in more of Portsmouth Harbour being included in a single constituency, but would welcome representations considering whether this or the Baffins ward more appropriately reflects this area. As a consequence of our changes in Portsmouth, the Havant constituency would be below the 5% limit. To increase its electorate we propose to include the Borough of Havant wards of Hart Plain, Cowplain, and Waterloo in the Havant constituency. These wards were previously included in the existing Meon Valley constituency.

**74** As a consequence of our changes in the county, we propose significantly modified constituencies of Winchester and East Hampshire. This has been necessary to ensure both constituencies are within 5% of the electoral quota and to accommodate the loss of a constituency. We propose a Winchester constituency that has expanded south to include ten City of Winchester wards, including the area of Bishop's Waltham. Our proposed East Hampshire constituency has also

expanded south to include seven District of East Hampshire wards, including the areas of Clanfield and Horndean.

### Initial proposals for the Isle of Wight sub-region

**75** As discussed earlier, the Isle of Wight is specifically allocated two whole constituencies. While the legislation does not state that the two constituencies should have similar electorates, we considered that it would be in accordance with the spirit of the legislation to divide the island relatively equally in terms of electorate. We will, however, consider representations that do not follow this approach, given that there is no legislative necessity to do so.

**76** We considered a number of configurations for dividing the island between constituencies. We propose to divide the island into Isle of Wight East and Isle of Wight West constituencies. Both are similar in terms of geographical size and we considered this ensured an element of rural and coastal communities in both constituencies.

### Initial proposals for the Oxfordshire sub-region

**77** There are currently six constituencies in the County of Oxfordshire. We are proposing no change to the number of constituencies.

**78** Three of the existing constituencies (Henley, Oxford West and Abingdon, and Witney) have electorates within 5% of the electoral quota. Of the remaining three constituencies, Banbury and Wantage have electorates above the 5% limit and Oxford East is below the 5% limit.

**79** We considered whether we could leave unchanged any of the three existing constituencies that have an electorate within 5% of the electoral quota. We propose no change to the constituency of Witney.

**80** To reduce the electorate of the existing Banbury constituency, which is too large, we propose to transfer the wards of Fringford, Launton, and Ambrosden & Chesterton (located in the Borough of Cherwell) to our renamed Henley and Thame constituency. As we have altered the existing Banbury constituency, we propose to rename the constituency Banbury and Bicester to reflect the names of the two largest towns. Our proposed Henley and Thame constituency extends further north than the existing Henley constituency. It extends up to, but does not include, the town of Bicester. In the south of our Henley and Thame constituency, we propose that it includes the ward of Wallingford from the existing Wantage constituency and, to ensure the constituency remains within 5% of the electoral quota, we propose to transfer the wards of Wheatley, Garsington & Horspath, and Sandford & The Wittenhams to our Oxford West and Abingdon constituency. The inclusion of these wards also reflects changes to the local government ward boundaries in the District of South Oxfordshire.

**81** The existing Oxford East constituency currently has an electorate below 5% of the electoral quota. In order to increase the number of electors in this constituency, we propose to include the wards of North and St. Margaret's (located in the City of Oxford) in our Oxford East constituency.

**82** In order to reflect changes to local government ward boundaries in the District of the Vale of White Horse, we propose that the whole of the Thames ward be included in our Wantage constituency.

### Initial proposals for the Surrey sub-region

**83** There are currently 11 constituencies in the County of Surrey. We are proposing no change to the number of constituencies. Eight of the existing constituencies have electorates within 5% of the electoral quota. The electorates of two constituencies, Runnymede and Weybridge, and Spelthorne are below the 5% limit and the constituency of Esher and Walton is above the 5% limit.

**84** We considered whether we could leave unchanged any of the existing eight constituencies that have an electorate within 5% of the electoral quota. In developing proposals in which all constituencies are within 5% of the electoral quota, we have not made alterations to the constituencies of East Surrey, Epsom and Ewell, Guildford, Reigate, and South West Surrey.

**85** To increase the electorate of the Spelthorne constituency, we propose to include the ward of Chertsey St. Ann's from the existing Runnymede and Weybridge constituency. We note that this constituency crosses the River Thames but consider that the Chertsey St. Ann's ward has clear road links into the Spelthorne constituency. The Runnymede and Weybridge constituency is otherwise largely unchanged. In addition to the change above, this constituency is modified in the south-west, as we

propose including the Byfleet ward in this constituency from the existing Woking constituency.

**86** In addition to transferring the Byfleet ward, we propose other changes to the existing Woking constituency. We propose including the Bisley ward from the existing Surrey Heath constituency in our Woking constituency. This is the only change we proposed to the existing Surrey Heath constituency. In the eastern part of our Woking constituency, we propose that it include the Borough of Guildford Send ward from the existing Mole Valley constituency.

**87** As the existing Esher and Walton constituency is currently above 5% of the electoral quota, we propose that the Oxshott and Stoke D'Abernon ward be transferred from it to our proposed Mole Valley constituency. This change results in both constituencies being within 5% of the electoral quota.

## 4 How to have your say

**88** We are consulting on our initial proposals for a 12-week period, from 13 September 2016 to 5 December 2016. We encourage everyone to give us their views on our proposals for their area – the more public views we hear and the more local information that is provided, the more informed our decisions will be when analysing all the views we have received.

**89** On our interactive consultation website, at [www.bce2018.org.uk](http://www.bce2018.org.uk), you can see what constituency you will be in under our proposals, and compare it with your existing constituency and local government boundaries. You can also easily submit your views on our proposals.

**90** When making comments on our initial proposals, we ask people to bear in mind the tight constraints placed on the Commission by the rules set by Parliament, discussed in chapter 2 and in our *Guide to the 2018 Review*. Most importantly, in the South East region:

- we cannot recommend constituencies that have electorates that contain more than 78,507 or fewer than 71,031 electors (apart from the two covering the Isle of Wight);
- we are basing our initial proposals on local government ward boundaries (from May 2015) as the building blocks of constituencies – our view is that, in the absence of exceptional and compelling circumstances, it would not be appropriate to divide wards in cases where it is possible to construct constituencies that meet the electorate rules without doing so; and

- we have constructed constituencies within regions, so as not to cross regional boundaries – compelling reasons would need to be given to persuade us that we should depart from this approach.

**91** These issues mean that we encourage people who are making a comment about their local area to bear in mind any knock-on effects that might result from their suggestions. The Commission must look at the recommendations for new constituencies across the whole region (and, indeed, across England). What may be a better solution for one location may have undesirable consequences for others. We therefore ask everyone wishing to respond to our consultation to bear in mind the impact of their counter-proposals on neighbouring constituencies, and on those further afield across the region.

### How can you give us your views?

**92** Views can be given to the Commission either in writing or in person (oral representations). We encourage everyone who wishes to comment on our proposals in writing to do so through our interactive consultation website at [www.bce2018.org.uk](http://www.bce2018.org.uk) – you will find all the details you need and be able to comment directly through the website. We also welcome oral representations at one of a series of public hearings we are conducting during the consultation period. People are welcome to both attend a hearing and submit comments through our website if they choose to.

## Written representations

**93** As stated above, we strongly encourage everyone to make use of our consultation website, at [www.bce2018.org.uk](http://www.bce2018.org.uk), when responding to our consultation. The website allows you to explore the map of our proposals and get further data, including the electorate sizes of every ward and polling district. You can also upload text or data files you may have previously prepared setting out your views.

**94** We encourage everyone, before submitting a representation, to read our approach to protecting and using your personal details (available at [www.bce2018.org.uk](http://www.bce2018.org.uk)). In particular, respondents should

remember that we are obliged to publish all the comments we receive on our initial proposals. As this is a public consultation, we publish respondents' names and addresses, alongside their comments.

## Public hearings

**95** The Commission will be hosting public hearings across England. In the South East region we will be hosting five public hearings during the consultation period. Our website ([www.bce2018.org.uk](http://www.bce2018.org.uk)) has more details of these hearings, and an opportunity to register to attend and give us your views in person. The table below shows the locations and dates of the hearings in the South East region.

Town	Location	Dates
Guildford	Guildford Harbour Hotel, 3 Alexandra Terrace, High St, Guildford, GU1 3DA	Thursday 20 – Friday 21 October 2016
Oxford	Oxford Town Hall, St. Aldate's, Oxford, OX1 1BX	Monday 24 – Tuesday 25 October 2016
Portsmouth	Portsmouth Guildhall, Guildhall Square, Portsmouth, PO1 2AB	Thursday 27 – Friday 28 October 2016
Brighton	Jurys Inn Brighton, 101 Stroudley Road, Brighton, BN1 4DJ	Monday 31 October – Tuesday 1 November 2016
Maidstone	Kent County Council, County Hall, Maidstone, ME14 1XQ	Thursday 3 – Friday 4 November 2016

**96** The purpose of the hearings is for people to have an opportunity to put their views on our proposals directly to an Assistant Commissioner who will chair the hearings and subsequently assist the Commission in the analysis of all the evidence received in the region. The hearings differ from the way we used to conduct 'local inquiries' in past reviews – these were much more judicial in style, and people were allowed to cross-examine each other. The legislation that Parliament introduced specifically rules out such inquiries, specifying instead that we host 'public hearings', which are intended purely as a way for people to make representations orally, directly to representatives of the Commission, as well as to provide an opportunity for the Commission to explain its proposals.

**97** It is important to stress that all representations, whether they have been made through our website, in person at a hearing, or sent to us in writing, will be given equal consideration by the Commission. Therefore it does not matter if you are unable to attend or speak at a public hearing – even after the last public hearing in the South East region has finished, you will still have until 5 December 2016 to submit your views to us.

**98** You can find more information about public hearings, and can register to attend, on our website at [www.bce2018.org.uk](http://www.bce2018.org.uk), or by phoning 020 7276 1102.

## What do we want views on?

**99** We would like particularly to ask two things of people responding to our consultation. First, if you support our proposals, please tell us so. Past experience suggests that too often people who are happy with our proposals do not respond in support, while those who object to them do respond to make their points. That can give a rather distorted view of the balance of public support or objection to proposals, and those who in fact support our initial proposals may then be disappointed if those proposals are subsequently revised in light of the consultation responses. Second, if you are considering objecting to our proposals, do please use the resources (such as maps and electorate figures) available on our website and at the places of deposit to put forward counter-proposals which are in accordance with the rules to which we are working.

**100** Above all, however, we encourage everyone to have their say on our initial proposals and, in doing so, to become involved in drawing the map of new Parliamentary constituencies. The more views and information we get as a result of our initial proposals and through the subsequent consultation phases, the more informed our consideration in developing those proposals will be, and the better we will be able to reflect the public's views in the final recommendations we present in 2018.

# Annex A: Initial proposals for constituencies, including wards and electorates

Constituency	Ward	District/borough/city/county	Electorate
<b>1. Aldershot BC</b>			<b>74,715</b>
	Crookham East	Hart	5,834
	Crookham West and Ewshot	Hart	6,394
	Aldershot Park	Rushmoor	5,177
	Cherrywood	Rushmoor	5,057
	Cove and Southwood	Rushmoor	5,276
	Empress	Rushmoor	4,259
	Fernhill	Rushmoor	5,190
	Knellwood	Rushmoor	5,442
	Manor Park	Rushmoor	5,447
	North Town	Rushmoor	4,547
	Rowhill	Rushmoor	4,994
	St. John's	Rushmoor	4,966
	St. Mark's	Rushmoor	4,763
	Wellington	Rushmoor	2,471
	West Heath	Rushmoor	4,898
<b>2. Arundel and South Downs CC</b>			<b>74,331</b>
	Angmering & Findon	Arun	7,003
	Arundel & Walberton	Arun	6,240
	Bury	Chichester	1,702
	Petworth	Chichester	3,609
	Plaistow	Chichester	3,649
	Wisborough Green	Chichester	1,913
	Bramber, Upper Beeding and Woodmancote	Horsham	4,124
	Chanctonbury	Horsham	6,506
	Chantry	Horsham	7,615
	Cowfold, Shermanbury and West Grinstead	Horsham	4,166
	Henfield	Horsham	4,059
	Pulborough and Coldwatham	Horsham	4,993
	Steyning	Horsham	4,786
	Bolney	Mid Sussex	2,118
	Hassocks	Mid Sussex	6,123
	Hurstpierpoint and Downs	Mid Sussex	5,725
<b>3. Ashford CC</b>			<b>71,303</b>
	Aylesford Green	Ashford	2,341
	Beaver	Ashford	3,817
	Bockhanger	Ashford	1,873
	Boughton Aluph and Eastwell	Ashford	2,262
	Bybrook	Ashford	1,891
	Charing	Ashford	2,008
	Downs North	Ashford	1,927
	Downs West	Ashford	1,932
	Godinton	Ashford	4,641
	Great Chart With Singleton North	Ashford	2,533
	Highfield	Ashford	1,841
	Isle of Oxney	Ashford	2,105
	Kennington	Ashford	1,799
	Little Burton Farm	Ashford	2,131
	Norman	Ashford	1,840
	North Willesborough	Ashford	3,742
	Park Farm North	Ashford	2,445
	Park Farm South	Ashford	1,932
	Saxon Shore	Ashford	4,083

Constituency	Ward	District/borough/city/county	Electorate
	Singleton South	Ashford	2,267
	South Willesborough	Ashford	2,360
	Stanhope	Ashford	1,900
	Stour	Ashford	3,599
	Victoria	Ashford	3,521
	Washford	Ashford	2,338
	Weald East	Ashford	2,195
	Weald South	Ashford	4,177
	Wye	Ashford	1,803
<b>4. Aylesbury CC</b>			<b>77,715</b>
	Aston Clinton & Stoke Mandeville	Aylesbury Vale	7,422
	Bedgrove	Aylesbury Vale	4,886
	Central & Walton	Aylesbury Vale	4,233
	Coldharbour	Aylesbury Vale	6,070
	Edlesborough	Aylesbury Vale	2,298
	Elmhurst	Aylesbury Vale	4,285
	Gatehouse	Aylesbury Vale	6,007
	Mandeville & Elm Farm	Aylesbury Vale	6,329
	Oakfield & Bierton	Aylesbury Vale	5,113
	Pitstone & Cheddington	Aylesbury Vale	4,799
	Riverside	Aylesbury Vale	4,966
	Southcourt	Aylesbury Vale	4,070
	Walton Court & Hawkslade	Aylesbury Vale	4,179
	Watermead	Aylesbury Vale	2,154
	Wendover & Halton	Aylesbury Vale	6,288
	Wing	Aylesbury Vale	2,321
	Wingrave	Aylesbury Vale	2,295
<b>5. Banbury and Bicester CC</b>			<b>78,250</b>
	Adderbury	Cherwell	2,317
	Banbury Calthorpe	Cherwell	3,974
	Banbury Easington	Cherwell	6,076
	Banbury Grimsbury and Castle	Cherwell	6,821
	Banbury Hardwick	Cherwell	5,911
	Banbury Neithrop	Cherwell	3,869
	Banbury Ruscote	Cherwell	5,606
	Bicester East	Cherwell	4,307
	Bicester North	Cherwell	4,601
	Bicester South	Cherwell	3,630
	Bicester Town	Cherwell	3,784
	Bicester West	Cherwell	5,467
	Bloxham and Bodicote	Cherwell	5,250
	Caversfield	Cherwell	2,087
	Cropredy	Cherwell	2,268
	Deddington	Cherwell	2,163

# Glossary

<b>Assessor</b>	Statutorily appointed technical adviser to the BCE, being either the Registrar General for England and Wales or the Director General of Ordnance Survey.	<b>Public hearing</b>	Formal opportunity in a given area for people to make oral representations, chaired by an Assistant Commissioner. In each region of England there may be no fewer than two and no more than five hearings, and each may last a maximum of two days.
<b>Assistant Commissioner</b>	Independent person appointed at the request of the BCE to assist it with the discharge of its functions.	<b>Representations</b>	The views provided by an individual, group or organisation to the BCE on its initial or revised proposals, either for or against, including counter-proposals and petitions.
<b>Borough constituency (abbreviated to BC)</b>	Parliamentary constituency containing a predominantly urban area.	<b>Review date</b>	Proposals must be based on the numbers of electors on the electoral registers on this date. Defined in the 2011 Act as the date two years and ten months before the final report is to be submitted (i.e. 1 December 2015 for the review that is to conclude with a final report by 1 October 2018).
<b>County constituency (abbreviated to CC)</b>	Parliamentary constituency containing more than a small rural element.	<b>Revised proposals</b>	The initial proposals as subsequently revised.
<b>Designation</b>	Classification as either a borough constituency or as a county constituency.	<b>Rules</b>	The statutory criteria for Parliamentary constituencies under Schedule 2 to the Parliamentary Constituencies Act 1986 (as amended).
<b>Electorate</b>	The number of registered Parliamentary electors in a given area.	<b>UK electoral quota</b>	The average number of electors in a constituency, found by dividing the total electorate of the UK (less that of the four specific 'protected' constituencies) by 596.
<b>(Statutory) Electorate range</b>	The statutory rule that requires the electorate of every constituency (as at the review date) to be within 5% of the UK electoral quota.	<b>Unitary authority</b>	An area where there is only one tier of local council (above any parish or town council). Contrasted with those 'shire district' areas that have two tiers (i.e. both a non-metropolitan county council and a district/ borough/city council).
<b>Final recommendations</b>	The recommendations submitted in a formal final report to Parliament at the end of a review. They may – or may not – have been revised since the initial proposals in any given area.		
<b>Initial proposals</b>	First formal proposals published by the BCE during the review for public consultation.		
<b>Periodical report</b>	Report to Parliament following a general review of Parliamentary constituencies.		
<b>Places of deposit</b>	In each constituency the Commission will make available hard copies of its initial proposals (including report and maps). The places of deposit where the public may inspect the proposals are usually the offices of the relevant local authority, although other public places such as libraries may be used. The Commission will publish a full list of places of deposit on its website.
